WELCOME TO THE WORLD OF MOLTON BROWN

Molton Brown, London's fragrance experts, have been an enduring icon of uniquely British style since 1971. Our Eaux de Parfum and Toilette, Bath and Body, Hair and Home collections blend the finest ingredients into formulations of unrivalled fragrance concentration. Made in England, our creations are intricately composed by visionary perfumers for an individual, indulgent sensory experience.

WHY INDULGE YOUR GUESTS WITH MOLTON BROWN?

Over 25 years of experience partnering with the world’s most esteemed hotels means we know the ingredients that enhance your guests’ sensorial moments. As leading fragrance experts with an irrepressible love of travel, we enjoy a renowned global presence and customer base.

We meticulously craft our fragrances in-house, with our hotel amenities sharing the same sensorial formulas as our retail collections.

We also offer your hotel digital coverage across our website and social media platforms, as well as editorial exposure in Condé Nast Traveller magazine, thanks to our yearly partnership. All of our distinctive services have earned us the Best Hotel Amenity Brand 2019 award by LUX Life Magazine.

Promote your best assets with us; the perfect opportunity to boost your property’s international repute.

OUR COMMITMENTS TO THE PLANET

Way ahead of their time, sustainability was at the very core of Molton Brown’s founders’ philosophy; from using refillable packaging, to carefully sourcing their ingredients, and their defiant stance against animal testing – a pioneering mindset for a brand in the 1970s.

Today more than ever, this is still part of our ethos. We’re proudly 100% vegetarian, and will be 100% vegan by 2021. We strive to find all of our naturally-derived ingredients from sustainable sources around the world and are committed to help stimulate the economies of developing countries along the way.

We have also remained true to our ‘Made in England’ values; minimising our carbon footprint by procuring our raw materials, packaging and components from UK manufacturers wherever possible. The electricity in our Elsenham factory and workspaces is generated from sustainable energy.

93% of our packaging is recyclable, from our shopping bags to the presentation boxes of our Hotel collections – our Bath & Body, and Hand collection bottles will soon be made from 50% recycled PET.

We are restlessly working on multiple ways to drive this change and carry on our positive purpose, because we firmly believe that luxury and sustainability go hand-in-hand.

Join our sustainable journey and let us support your conscious consideration for the world around you.
